View solution

A factory machinery's depreciation

B factory operatives' wages

C factory rent and rates

D factory supervisors' salaries

© Cambridge University Press & Assessment 2026

30 John did **not** keep a full set of double entry records.

View solution

He provided the following information for 2025.

	1 January $	31 December $
trade receivables	6000	9000
trade payables	4500	7800

During the year ended 31 December 2025, he paid $28 000 to trade payables and received $25 000 from trade receivables.

What were his credit sales for the year ended 31 December 2025?

A $22 000 **B** $24 700 **C** $28 000 **D** $31 300

31 A business provided the following information.

View solution

Inventory at the start of the year was $10 000.

At the end of the year:

- inventory had increased by 20%
- current liabilities were $26 000 and total liabilities were $36 000
- the liquid (acid test) ratio was 0.96 : 1.

What were the current assets at the end of the year?

A $34 960 **B** $36 960 **C** $44 560 **D** $46 560

32 What will **not** result, on its own, in an improvement in gross margin?

View solution

A a decrease in purchase price per unit

B an increase in selling price per unit

C a decrease in the carriage inwards per unit

D an increase in the carriage outwards per unit

© Cambridge University Press & Assessment 2026

33 The table shows information on two businesses, J and K, which are in the same trade. Neither business has any income other than revenue from sales.

View solution

	J	K
gross profit	$48 000	$48 000
profit for the year	$30 000	$21 000
gross profit margin	10%	12%

Which statement is correct based on the information in the table only?

A J controlled expenses better than K did.

B J sold goods at a higher price than K did.

C K bought goods from a more expensive supplier than J did.

D K incurred lower expenses than J.

34 A business included all wages due, but unpaid, in its income statement for the year.

View solution

Which accounting principle was being followed?

A going concern

B matching

C materiality

D realisation

35 Which statement describes ‘relevance’ as an objective when selecting accounting policies?

View solution

A Accounting information must be accurate.

B Accounting information must be free from bias.

C Accounting information must influence users’ decisions.

D Accounting information must stay consistent over time.
