1 Rikado left his job as a machine operator to start his own manufacturing business.

View solution

Why was he interested in his financial statements at the end of the first year of business?

A to ascertain the market value of the non-current assets

B to check if all the transactions had been recorded

C to find out about job satisfaction among the workers

D to see if the profit was greater than his previous earnings

2 How is owner's equity calculated?

View solution

A total assets – total liabilities

B total assets + total liabilities

C current assets – current liabilities

D non-current assets – non-current liabilities

3 Shula's financial year ends on 31 March. On 1 April 2024, there was a credit balance of $100 on Yasmin's account in Shula's purchases ledger.

View solution

What does this mean?

A Shula had paid $100 to Yasmin.

B Yasmin had paid $100 to Shula.

C Shula owed $100 to Yasmin.

D Yasmin owed $100 to Shula.

4 Which document may be used by a business as proof that an invoice has been paid?

View solution

A credit note

B paying-in slip

C petty cash voucher

D receipt

5 Raminder maintains a petty cash book using the imprest system. The monthly imprest of $250 is restored on the first day of each month.

In January, the petty cashier spent $105, and received a refund of $15 from a stationery supplier.

View solution

How much was given to the petty cashier on 1 February to restore the imprest?

A $90 **B** $105 **C** $145 **D** $160

6 Which statement about cash discounts is **not** correct?

View solution

A Cash discounts are given if payment is made within the time limit set by the supplier.

B Cash discounts are shown as a reduction from the list price when goods are ordered.

C Customers will show cash discounts given to them as other income in the income statement.

D Suppliers will show the cash discounts they give as an expense in the income statement.

7 Ziningi prepared a trial balance. The total of the debit column was $225 750, and the total of the credit column was $225 250.

View solution

What could explain the difference?

A The bank overdraft of $250 was included as a debit balance.

B Discount allowed of $500 was included as a debit balance.

C Purchases returns for $250 were included as a credit balance.

D Sales returns of $500 were included as a debit balance.

8 Michael opened a suspense account when he prepared draft financial statements. He then discovered that purchases of $68 had been credited to the purchases account as $86.

View solution

Which entry was made in the suspense account when this error was corrected?

A $18 credit

B $18 debit

C $154 credit

D $154 debit

9 Sameer calculated that his profit for the year was $6300. He then found two errors.

View solution

1 A cheque for $3250, received from a credit customer, had only been recorded in the cash book.

2 The total of the discount allowed column in the cash book, $300, had been credited to the discount received account.

What was Sameer's corrected profit for the year?

A $2450 **B** $2750 **C** $5700 **D** $6000

10 Miguel's cash book showed a debit bank balance of $4220. He later discovered the following errors.

1 A cheque for $200, issued for the purchase of office equipment, had been recorded in error in the office expenses account.

2 Bank charges of $30 had been recorded in the cash book as $70.

View solution

What was the effect of these errors on his statement of financial position?

	non-current assets (cost)	current assets
A	overstated by $200	no effect
B	understated by $200	no effect
C	understated by $200	overstated by $30
D	understated by $200	understated by $40

11 A trader was reconciling his bank statement with the updated balance of his cash book.

View solution

There were unpresented cheques and uncredited deposits. The bank statement did not contain any errors. He started preparing his bank reconciliation statement with the credit balance on the bank statement.

How did he arrive at his updated cash book balance?

A by adding both unpresented cheques and uncredited deposits

B by subtracting both unpresented cheques and uncredited deposits

C by adding unpresented cheques and subtracting uncredited deposits

D by subtracting unpresented cheques and adding uncredited deposits

12 Mary is a trader. She has a debit balance in the bank column of her cash book. Mary has received her bank statement and needs to update her cash book to record the following items.

View solution

1 A credit customer, Sam, has settled his account using a credit transfer.

2 Mary lets part of her premises to Dennis who has paid his monthly rent by standing order.

The bank balance is **not** overdrawn.

How does recording these items affect the bank balance in Mary's cash book?

	item 1	item 2
A	decrease	decrease
B	decrease	increase
C	increase	decrease
D	increase	increase

13 The cash book provides information for which control account item?

View solution

A discount allowed to credit customers

B interest charged on overdue accounts

C irrecoverable debts written off

D purchases returns

14 When Mark started a car repair business, he purchased premises and equipment.

View solution

Two years later, he spent $5000 on building an extension, $600 on new equipment and $750 on repainting the original premises.

By how much will the non-current assets increase because of these transactions (ignore depreciation)?

A $5000 **B** $5600 **C** $5750 **D** $6350

15 On 1 January 2023, equipment was purchased for $50 000. The equipment is expected to have a useful life of five years and a residual value of $10 000. The straight-line method of depreciation is used.

What was the balance on the provision for depreciation of equipment account on 31 December 2024?

A $8000 **B** $10 000 **C** $16 000 **D** $20 000

View solution

16 Anjum rents part of her premises to Ajay for $6120 per annum. At the beginning of the year, Ajay had paid two months' rent in advance. At the end of the year, Ajay had paid three months' rent in advance.

View solution

How much rent was received from Ajay during the year?

A $3570 **B** $5610 **C** $6630 **D** $8670

17 Why does a trader write off money owed by a credit customer as an irrecoverable debt?

View solution

A because the credit customer has **not** paid their account at the end of the trading period

B because the credit customer has **not** paid their account by the due date

C because the credit customer is no longer buying goods from the trader

D because the credit customer is **not** able to pay their account

18 Shilpa's financial year ends on 30 April. On 31 March 2025, she wrote off a debt owed by Tahir as irrecoverable.

View solution

Which entry did Shilpa make on 31 March 2025?

	debit	credit
A	income statement	Tahir
B	irrecoverable debts	income statement
C	irrecoverable debts	Tahir
D	Tahir	irrecoverable debts

19 Tony has prepared an inventory calculation statement at the end of the financial period.

View solution

	cost $	net realisable value $
cricket bats	600	750
cricket gloves	400	320
cricket helmets	900	1 200
cricket pads	300	240

What is the value of Tony's inventory?

A $2060 **B** $2200 **C** $2510 **D** $2650

© UCLES 2025

20 Which statement is correct?

View solution

A The income statement is part of the double entry system and shows a trader's financial performance.

B The income statement is part of the double entry system and shows a trader's financial position.

C The statement of financial position is part of the double entry system and shows assets and liabilities only.

D The statement of financial position is part of the double entry system and shows owner's capital only.

21 Draft financial statements prepared at the end of the first year of trading show:

View solution

- draft profit for the year of $24 000
- trade receivables of $6300.

An amount of $200 is to be written off as irrecoverable.

A provision for doubtful debts is to be set at 1% of the remaining trade receivables.

What is the revised profit for the year?

A $23 737 **B** $23 739 **C** $23 800 **D** $23 939

22 Ann and Bob are in partnership and share profits in the ratio 3 : 2 respectively. Ann is entitled to a salary of $20 000 per annum. There is no interest on capital or interest on drawings. The profit for the year is $75 000. Ann's share of the residual profit was $24 000.

View solution

What salary was Bob entitled to?

A $13 333 **B** $15 000 **C** $16 000 **D** $31 000

23 What are the advantages to shareholders of operating as a limited company?

View solution

1 It has a separate legal identity.

2 It makes it easier to prepare financial statements.

3 It makes it quicker to prepare financial statements.

4 It protects personal assets.

A 1, 2, 3 and 4

B 1 and 2 only

C 1 and 4 only

D 2, 3 and 4 only
